  - f. California relay service calls may not be placed to:
    - 976 or 900 numbers
    - Time or weather recorded messages
    - Other informational recordings
  - g. Express Call Completion

Express Call Completion (ECC) provides an incoming directory assistance customer requesting an intraLATA number a mechanized announcement offering call completion to the listed number requested.

The mechanized announcement will instruct the caller that for an additional charge they may have their call automatically completed by depressing a specific digit on the Touch Tone keypad. All completed calls will be charged the ECC service charge, in addition to any other appropriate charges. <sup>1</sup>

Manual call completion will be available to rotary telephones without incurring the operator handled surcharge.

ECC service is effective on and after September 30, 1990.

ECC will only be furnished where facilities and operating conditions permit.

ECC will not be provided to the following services:

WATS Service

800 Service

976 Service

900 Service

Inmate Service

Zenith/Enterprize Service

This offering provides call completion on a LATA wide basis only.

Credits shall apply for completions to an incorrect telephone number.

The Utility assumes no responsibility or liability for any errors in the information furnished. The caller shall indemnify the Utility and hold it free and harmless of and from any and all claims, demands or damages that shall arise from the use of the service.

#### 3. Territory

Between two points within a LATA where the respective rate centers of such points also are located in said LATA.

- 4. Rates and Charges
- a. Method of Applying Rates
  - (1) Toll rates between points (cities, towns or localities) are based on the airline distance between rate centers. In general, each point is designated as a rate center; certain small towns or localities are assigned adjacent rate centers with which they are closely associated for communication purposes.
  - (2) Determine the rate airline distance between the rate centers involved.

Where a point is divided into district areas specified in Schedule Cal.P.U.C. No. A6.2.7,B. the rate airline distance is the mileage between the rate center of the district area and the rate center of the other point, except that when such mileage exceeds 40 miles the rate airline distance is the mileage between the exchange rate center and the rate center of the other point with a minimum of 41 miles.

If both points are divided into district areas the rate airline distance is the mileage between the rate centers of the district areas, except that when such mileage exceeds 40 miles the rate airline distance is the mileage between the exchange rate centers with a minimum of 41 miles.

(3) Refer to (12) following. Opposite the mileage step which includes the mileage determined as in (2) above, will be found the rates for sent-paid dial and coin station service; initial periods and rates for additional minutes for all classes of service between the rate centers involved. Below the table are the service charges for dial (credit) credit card station, operator station, operator person and coin person service.

Dial station rates apply to:

Sent-Paid messages dialed and completed by the customer from a residence, business or customer-owned pay (COPT) telephone without the assistance of a Utility operator.

Sent-Paid messages placed with the assistance of an operator where:

- Dial completion facilities are not available.
- Equipment or circuit conditions cause unsuccessful dial attempts.
- The customers identify themselves as being handicapped and unable to dial.
- The Utility operator must identify the calling number where automatic recording equipment is not available.
- The Utility operator reestablishes the connection after a service failure on a customer dialed call.
- The California Relay Service communication assistant completes a call between a TDD and a non-TDD telephone.
- (6) Dial (Credit) Calling Card Station Service applies when the person originating the call:<sup>1</sup>
  - Dials the digit zero, plus the called telephone number, plus (Credit) Calling Card number (where equipment is available) to complete the call without operator assistance, or
  - Dials the digit zero, plus the called telephone number (0 + number) to complete the call. In such cases operator assistance is limited to recording the (Credit) Calling Card number for billing purposes,
- NOTE 1: These charges are applicable only to calls placed originally as a (Credit) Calling Card call and <u>not</u> applicable to collect or third number billing on which the "billed-to-number" person, accepts the charges, but requests the charges be billed to a (Credit) Calling Card.

Charges (including messenger charges) for all classes of telephone calls are billed against or collected from the calling telephone number. However, upon request, calls between points within a LATA may be placed on a non sent-paid basis and toll charges may be:

- Billed against or collected from the called telephone number, except a coin telephone number and a COPT telephone number (i.e., charges may be reversed) if the charges are accepted at the called station.
- Billed against or collected from a third telephone number or account, except a coin telephone number and a COPT telephone number anywhere in the United States or Canada where such billing is accepted at the third telephone.
- Exception California Relay Service calls may only be billed to a third number within California.
- Billed against another telephone company (credit) calling card account when the party requesting such billing is authorized to use such (credit) calling card.
- Exception California Relay Service calls may only be billed to a calling card issued within California.
